That the proposal of Mr. Waid (see copy of letter) concerning his bill for fees as architect be accepted, and a vote of thanks be extended to him for his generous donation.

Also that the following appropriations, necessary to the carrying out of the proposal, be made, viz::

Copy of Mr. Waid's letter:

"Dear Mr. Allaben:--

"I send you herewith bills covering architect's services on the several buildings with which I have had to do. Will you not kindly present this letter to the Building Committee as my receipt in full for these several bills.

"It has been a satisfaction to me to know that I was engaged as architect to the Board on a business basis, first by Mrs. James for one particular building, and, later, by the Building Committee to design several buildings and to

serve as consulting architect for your work in general. I would like, however, to have you accept the service covered by the accompanying bills as my contribution.

"I would like to ask a favor of the Committee, if it is entirely convenient and agreeable, namely, that you will send me a payment covering the charges, and permit me to return the amount as a donation to be applied in a specific manner of my own choosing. This I suggest for two reasons, first, because of my special interest in one particular work, and, second, because I should like to see, as a matter of book-keeping, a recognition of the value of an architect's work, which, if properly done, should be as essential a part of the cost as any other portion of the building operation. This appears to me to be a matter of importance in an educational way for the benefit of members of the Board who may not appreciate as well as you do the amount of work involved. Some people seem to have the impression that an architect's work consists in making a few quickly rendered artistic sketches. To whatever extent we fail in the successful outcome in the building work represented by these bills, I myself realize the value in one sense, for, notwithstanding my own personal work, in which I have taken a keen interest, my disbursements have in several cases closely approached, if they have not exceeded, the amount of the bill.

"If, for any reason, the Committee finds it inconvenient to allow me to select the object to which I would like to have my gift devoted, please accept this as a receipt in full for all the bills without considering further the matter of payment and return as above suggested.

"Thanking you for your cordial cooperation, and the pleasure which I have had working with yourself and the other members of the Committee, believe me,

Sincerely yours,

(Signed) D. E. Waid."
